EDUCATION

Duke Kunshan University

Kunshan, China

Bachelor of Science in Applied Mathematics and Computational Science

September 2020 – May 2024

- **Combined Cumulative GPA:** 3.622/4.0 (Dean's List: Fall 2020), **Major GPA:** 3.7

Duke University

Durham, USA

Exchange Program

January 2023 – May 2023

- **GPA:** 4.0/4.0 (Dean's List with Distinction: Spring 2023)

PUBLICATIONS

- Italo Simonelli and **Qixuan Wang**. An Elementary Proof of the Law of Iterated Logarithm for Minima and New Extensions of the Borel-Cantelli Lemma. *Under Review*, 2022.
Available at [SSRN](#); listed on SSRN's Top Ten download list for [Probability & Statistics eJournal](#)

RESEARCH EXPERIENCES

Diffusion Probabilistic Models [[Code](#)]

Durham, USA

Supervised by Professor Jian-Guo Liu (Duke University)

May 2023 – Present

- Adopted the input perturbation method to the single image generation and proposed an improved version of the single image denoising diffusion model (SinDDM)
- Achieved better visual results compared to the original method and intended to apply the new algorithm to speech synthesis and text generation

The Sunflower Lemma

Kunshan, China

Supervised by Professor Italo Simonelli

June 2022 – December 2022

- Aimed to make an improvement of the existing lower bound for finite delta systems
- Pinpointed and corrected a mistake in a formula for calculating the lower bound in a paper by Harvey L. Abbott and got the correct lower bound in a particular case

The Borel-Cantelli Lemma and the Growth Rate of Partial Maxima

Kunshan, China

Supervised by Professor Italo Simonelli

October 2021 – June 2022

- Presented a new, simple proof of the law of iterated logarithm for minima of uniform random variables and proved new extensions of the Borel-Cantelli Lemma
- Published a preprint on SSRN – [An Elementary Proof of the Law of Iterated Logarithm for Minima and New Extensions of the Borel-Cantelli Lemma](#)

PROJECTS

[Bark Voice Cloning and Voice Cloning for Chinese Speech](#)

- Integrated Bark voice cloning with SambertHifigan for Chinese speech [[Code](#)]
- Received over 780 stars on GitHub; one of the Top 20 applications (sorted by trending) on Hugging Face

[ChatGLM2 Voice Cloning](#)

- Enabled users to chat with any character they like in real time using large language models, talking face animation and voice cloning [[Code](#)]
- Received over 360 stars on GitHub

[Modeling the COVID-19 Epidemic with Ordinary Differential Equations](#)

Supervised by Professor Konstantinos Efstathiou

- Discussed thoroughly the SIR (Susceptible-Infected-Removed) model for spread of disease and some of its variants in epidemiology
- Combined several variants together to get a new model that takes more parameters into account [[Report](#)] [[Slides](#)]

Approximation Theory and Related Applications

Supervised by Professor Konstantinos Efstathiou

- Discussed several techniques in approximation theory such as discrete least squares approximation, continuous least squares approximation, and Chebyshev polynomials
- Investigated a wide range of applications of discrete least squares approximation [Report] [Slides]

TALKS

- **The Borel-Cantelli Lemma and the Growth Rate of Partial Maxima**

DKU Discrete Math Seminar

March 24, 2023 [Slides]

- **The Probabilistic Method: The Basic Method and the Local Lemma**

DKU Discrete Math Seminar

September 23, 2022 [Slides]

TEACHING EXPERIENCES

- Tutor in **Real Analysis** (MATH 308): Spring 2023
- Tutor in **Probability and Statistics** (MATH 206): Spring 2023, Fall 2023
- Tutor in **Probability and Statistics** (MATH 205): Spring 2022, Fall 2022, Spring 2023, Fall 2023
- Tutor in **Introduction to Applied Statistical Methods** (STATS 101): Spring 2022

LEADERSHIP EXPERIENCES & SERVICE

- Founder of United Platform sponsored by DKU Innovation Incubator: From Fall 2021 to Spring 2022 [News]
- Vice President of DKU Soccer Association: From Fall 2021 to Spring 2022 [News]
- Director of Publicity of DKU Soccer Association: Spring 2021 [News]
- Played for DKU Varsity Soccer Team: From Fall 2020 to Fall 2022 [News]

DEMOCRATIZATION OF ARTIFICIAL INTELLIGENCE

- **A content creator:** Made almost **30** videos about various applications of generative AI such as speech synthesis, voice conversion, and stable diffusion on bilibili – one of the most popular video-sharing platforms in China. My [channel](#) now has over **6k** followers and my videos have more than **400k** views in total.
- **Open-source projects:** Built a lot of machine learning applications and all of them are open-source. My [GitHub](#) projects have received over **1.2k** stars in total. My speech synthesis [project](#) was one of the Top **20** applications (sorted by trending) on Hugging Face.
- **Entrepreneurship:** Worked on a startup project named [TalkTalkAI](#). My goal is to let everyone enjoy the benefits of the development of speech technology. I have met and discussed with the partners of two venture capital corporations (Y Combinator China and Panda Capital) about my startup project.

INTERNSHIP

Information Technology Department of [Innoscience](#)

Suzhou, China

- Worked on a Python program for yield testing and anomaly detection

July 2022 – August 2022

RELEVANT COURSEWORK

- Relevant courses taken at Duke Kunshan University:
Introduction to Applied Statistical Method (R), Introduction to Data Science (Python), Introduction to Programming and Data Structure (Java), Linear Algebra, Probability and Statistics, Numerical Analysis (Julia), ODE and Dynamical Systems (Mathematica)
- Relevant courses taken at Duke University:
Real Analysis (MATH 431), Statistical Learning and Inference (STATS 432)

TECHNICAL SKILLS

Programming languages: Python, R, Java, Julia, LaTeX, Markdown, Mathematica

Machine learning: PyTorch, TensorFlow, SciPy

Data analysis: Pandas, NumPy, Matplotlib
